Subject Index

ACNU
Effects of ACNU and radiotherapy on malignant glioma, 53
Acromegaly
Familial acromegaly with pituitary adenoma. Report of three affected siblings, 510
Intracranial and intraspinal dissemination from a growth hormone-secreting pituitary tumor. Case report, 140
Air embolism
Echocardiographic detection and treatment of intraoperative air embolism, 440
Alimentation
Alimentation of head-injured patients. Letters, 984
Assessment of nutritional requirements of head-injured patients, 895
Effect of parenteral nutrition on cold-induced vasogenic edema in cats, 460
Physiological and metabolic response to isolated closed-head injury. Part 1: Basal metabolic state: correlations of metabolic and physiological parameters with fasting and stressed controls, 89
American Association of Neurological Surgeons
Scientific Program: Annual Meeting of The American Association of Neurological Surgeons, April 13–17, 1986, 348
Anastomosis
Fusiform posterior cerebral artery aneurysm treated with excision and end-to-end anastomosis. Case report, 501
Anatomical study
Microvascular anatomy of the interpeduncular fossa, 484
Aneurysm
Bifrontal interhemispheric approach to aneurysms of the anterior communicating artery, 183
Distal posterior cerebral artery aneurysm. Case report, 669
Fusiform posterior cerebral artery aneurysm treated with excision and end-to-end anastomosis. Case report, 501
Inadvertent middle cerebral artery embolism by a detachable balloon: management by embolectomy. Case report, 309
Lateral suboccipital approach for vertebral and vertebrobasilar artery lesions, 559
Multiple brain abscesses associated with a mycotic aneurysm of the left common carotid artery. Case report, 325
Nizofenone administration in the acute stage following subarachnoid hemorrhage. Results of a multi-center controlled double-blind clinical study, 420
Outcome evaluation following subarachnoid hemorrhage, 191
Repair of a vertebral artery dissection. Case report, 662
Surgical management of aneurysms of the distal extracranial internal carotid artery, 169
The transtorcular embolization of vein of Galen aneurysms, 731
Angiography
Intraoperative angiography using a portable digital subtraction unit. Technical note, 816
Spontaneous subarachnoid hemorrhage and negative cerebral panangiography. Review of 140 cases, 537
Antifibrinolysis
Antifibrinolytic therapy of experimentally grown malignant brain tumors, 263
Prognosis in subarachnoid hemorrhage of unknown etiology, 359
Arachnoid cyst
Intracranial arachnoid cysts in children, 835
Arnold-Chiari malformation
Preoperative evaluation and surgical management of the Arnold-Chiari II malformation, 363
Arteriovenous malformation
Arteriovenous malformations of the posterior fossa. Clinical presentation, diagnostic evaluation, and surgical treatment, 849
Direct spinal arteriovenous fistula: a new type of spinal AVM. Case report, 134
Lateral suboccipital approach for vertebral and vertebrobasilar artery lesions, 559
Management of arteriovenous malformations of the brain stem, 857
Neurological manifestations of intracranial dural arteriovenous malformations, 724
Optic nerve apoplexy. Report of two cases, 313
Posterior fossa arteriovenous malformations, 1
Radiological and pathological aspects of dural arteriovenous fistulas. Case report, 962
Radiotherapy of intracranial AVM's. Letter, 525
Spinal cord arteriovenous malformation in a neonate. Case report, 322
The transtorcular embolization of vein of Galen aneurysms, 731
Unusual clinical manifestations of dural arteriovenous malformations, 554
Astrocytoma
Cerebral astroblastoma: immunohistochemical and ultrastructural features. Case report, 657
Effects of ACNU and radiotherapy on malignant glioma, 53
Interstitial hyperthermia and iridium brachytherapy in treatment of malignant glioma. A Phase I clinical trial, 581
Intrinsic brain-stem tumors of childhood: surgical indications, 11
Sudden deterioration and death in patients with benign tumors of the third ventricle area, 216
Blood-brain barrier
BSS Plus: a potential irrigating solution for neurosurgery, 911
Focal brain edema associated with acute arterial hypertension, 643

Brain abscess
Delayed brain abscess related to a retained foreign body with culture of *Clostridium bifermentans*. Case report, 813
Differential diagnosis of CT-hypodense cranial lesions with indium-111-oxine-labeled leukocytes, 750
Intracranial tuberculoma and the CT scan, 568
A model of brain abscess: septic homologous blood clot emboli in rats, 125
Multiple brain abscesses associated with a mycotic aneurysm of the left common carotid artery. Case report, 325

Brain neoplasm, *see also* specific neoplasms
Antifibrinolytic therapy of experimentally grown malignant brain tumors, 263
Carotid body tumors: a subject review and suggested surgical approach, 377
Cerebral astroblastoma: immunohistochemical and ultrastructural features. Case report, 657
Cerebrospinal fluid rhinorrhea following surgery for acoustic neurinoma. Report of two cases, 676
Computer-assisted stereotaxic laser resection of intra-axial brain neoplasms, 427
Cystic meningiomas. Report of seven cases, 35
Distribution, retention, and phototoxicity of hematoporphyrin derivative in a rat glioma. Intraneoplastic versus intraperitoneal injection, 768
Drug streaming during intra-arterial chemotherapy, 284
Effects of ACNU and radiotherapy on malignant glioma, 53
Granulomatous brain tumor caused by *Acanthamoeba*. Case report, 505
Hemangioblastoma of the cervicomedullary junction. Report of three cases, 317
In situ cell kinetics studies on human neuroectodermal tumors with bromodeoxyuridine labeling, 453
In vitro killing of human glioblastoma by interleukin-2-activated autologous lymphocytes, 114
In vitro photoradiation therapy of the rat 9L gliosarcoma, 775
In vivo imaging of intracranial human glioma xenografts comparing specific with nonspecific radiolabeled monoclonal antibodies, 257
Interleukin-2 and autologous lymphokine-activated killer cells in the treatment of malignant glioma. Freliminary report, 743
Interstitial hyperthermia and iridium brachytherapy in treatment of malignant glioma. A Phase I clinical trial, 581
Intracranial tumors in patients with facial pain, 865
Intrinsic brain-stem tumors of childhood: surgical indications, 11
Large intramedullary lipoma of the cervical cord and posterior fossa. Case report, 974
Laser photochemotherapy of rhodamine-123 sensitized human glioma cells *in vitro*, 918
Late outcome after suprachiasmal meningioma removal. Letter, 525
Medulloblastoma in childhood: results of radical resection and low-dose neuraxis radiation therapy, 238
Mixing studies during intracarotid artery infusions in an *in vitro* model, 277
Nasal glioma and encephalocele: two separate entities. Report of two cases, 516
Papillary meningioma involving the oculomotor nerve in an infant. Case report, 808
Phase II trial of interferon-β for treatment of recurrent glioblastoma multiforme, 408
Primary leptomeningeal ependymoblastoma. Case report, 968
Recurrence of intracranial meningiomas: the role played by regional multicentricity, 58
Sex steroid hormones and meningioma cell growth. Letters, 341
Sudden deterioration and death in patients with benign tumors of the third ventricle area, 216
Supratentorial ependymomas. Neuroimaging and clinicopathological correlation, 209

Bromodeoxyuridine
In situ cell kinetics studies on human neuroectodermal tumors with bromodeoxyuridine labeling, 453
The proliferative potential of human pituitary tumors *in situ*, 588

BSS Plus
BSS Plus: a potential irrigating solution for neurosurgery, 911

^{14}C-iodoantipyrine
Drug streaming during intra-arterial chemotherapy, 284

Calcium antagonist
Effect of nimodipine on intracellular brain pH, cortical blood flow, and EEG in experimental focal cerebral ischemia, 617
Carotid body
Carotid body tumors: a subject review and suggested surgical approach, 377
Carotid endarterectomy
Incidence and etiology of intracerebral hemorrhage following carotid endarterectomy, 29
Cavernous angioma
Intracranial and orbital cavernous angiomas. A review of 30 cases, 197
Intracranial cavernous angioma: presentation and management, 720
Cavernous sinus neoplasm
Operative management of tumors involving the cavernous sinus, 879
Cerebral blood flow
Cerebral hemodynamics in patients with acute severe head trauma, 231
Computerized tomography, magnetic resonance imaging, and positron emission tomography in the study of brain trauma. Preliminary observations, 760
The effect of mannitol on cerebral blood flow, 754
Effect of naloxone on cerebral perfusion and cardiac performance during experimental cerebral ischemia, 780
Effects of fluid-percussion brain injury on regional cerebral blood flow and pial arteriolar diameter, 787
Effects of hypertonic saline versus lactated Ringer's solution on cerebral oxygen transport during resuscitation from hemorrhagic shock, 627
Cerebral blood volume
Effects of rapid mannitol infusion on cerebral blood volume. A positron emission tomographic study in dogs and man, 104
Cerebral edema
Effect of parenteral nutrition on cold-induced vasogenic edema in cats, 460
Effect of vasopressin on cold-induced brain edema in cats, 941
Focal brain edema associated with acute arterial hypertension, 643
The kallikrein-kinin system as mediator in vasogenic brain edema. Part 3: Inhibition of the kallikrein-kinin system in traumatic brain swelling, 269
Nuclear magnetic resonance imaging and spectroscopy in experimental brain edema in a rat model, 795
Cerebral function
The right hemisphere: neuropsychological functions, 693
Cerebral hematoma
Delayed intracerebral hematoma at the site of a subarachnoid bolt pressure monitor. Case report, 673
Cerebral hemorrhage
Incidence and etiology of intracerebral hemorrhage following carotid endarterectomy, 29
Intracranial cavernous angioma: presentation and management, 720
Cerebral ischemia
Effect of indomethacin in focal cerebral ischemia. Letters, 687
Effect of naloxone on cerebral perfusion and cardiac performance during experimental cerebral ischemia, 780
Effect of nimodipine on intracellular brain pH, cortical blood flow, and EEG in experimental focal cerebral ischemia, 617
Nizofenone administration in the acute stage following subarachnoid hemorrhage. Results of a multi-center controlled double-blind clinical study, 420
Treatment of experimental stroke with opiate antagonists. Effects on neurological function, infarct size, and survival, 99
Cerebral ischemia, transient
Development of cyclooxygenase and lipoxygenase metabolites of arachidonic acid after transient cerebral ischemia, 118
Cerebral venous thrombosis
Cerebral venous thrombosis due to high-altitude polycythemia. Case report, 148
Cerebrospinal fluid
Ultrastructural morphology of the olfactory pathway for cerebrospinal fluid drainage in the rabbit, 466
Variations in pressure-volume index and CSF outflow resistance at different locations in the feline craniospinal axis, 298
Cerebrospinal fluid rhinorrhea
Cerebrospinal fluid rhinorrhea following surgery for acoustic neurinoma. Report of two cases, 676
Chemonucleolysis
Correlation of radiological features to failure of lumbar intervertebral disc chemonucleolysis, 736
Effects of collagenase and chymopapain on spinal nerves and intervertebral discs of Cynomolgus monkeys, 474
Efficacy of chymopapain chemonucleolysis. Letters, 162
Surgical experience following intervertebral discolysis with collagenase, 613
Chemotherapy
Drug streaming during intra-arterial chemotherapy, 284
Effects of ACNU and radiotherapy on malignant glioma, 53
Laser photochemotherapy of rhodamine-123 sensitized human glioma cells *in vitro*, 918
Mixing studies during intracarotid artery infusions in an *in vitro* model, 277
Chymopapain
Correlation of radiological features to failure of lumbar intervertebral disc chemonucleolysis, 736
Effects of collagenase and chymopapain on spinal nerves and intervertebral discs of Cynomolgus monkeys, 474
Efficacy of chymopapain chemonucleolysis. Letters, 162
Clip
Miniclips and microclips for surgical hemostasis. Technical note, 824
A new microclip for vascular occlusion. Technical note, 822
Colloid cyst
Sudden deterioration and death in patients with benign tumors of the third ventricle area, 216
Computerized tomography
Cerebral vasospasm evaluated by transcranial ultrasound correlated with clinical grade and CT-visualized subarachnoid hemorrhage, 594
Computerized tomography, magnetic resonance imaging, and positron emission tomography in the study of brain trauma. Preliminary observations, 760
Differential diagnosis of CT-hypodense cranial lesions with indium-111-oxine-labeled leukocytes, 750
Intracranial tuberculoma and the CT scan, 568
Medical imaging of fetal ventriculomegaly, 575
Spontaneous subarachnoid hemorrhage and negative cerebral panangiography. Review of 140 cases, 537
Stereotaxic surgery with a magnetic resonance- and computerized tomography-compatible system, 872
Supratentorial ependymomas. Neuroimaging and clinicopathological correlation, 209

Deep vein thrombosis
Management of symptomatic deep venous thrombosis and pulmonary embolism on a neurosurgical service, 563
Dexamethasone
Effect of high-dose dexamethasone on outcome from severe head injury, 81
Dissecting aneurysm
Repair of a vertebral artery dissection. Case report, 662
Drug delivery
Continuous intrathecal hydromorphone and clonidine for intractable cancer pain, 890
Drug streaming during intra-arterial chemotherapy, 284

Mixing studies during intracarotid artery infusions in an *in vitro* model, 277
Dural defect repair
Temporalis myofascial repair of traumatic defects of the anterior fossa. Technical note, 977

Electrical stimulation
Spinal cord stimulation in peripheral arterial disease. A cooperative study, 71
Subcortical electrical stimulation for control of intractable pain in humans. Report of 122 cases (1970–1984), 543
Embolization
Inadvertent middle cerebral artery embolism by a detachable balloon: management by embolectomy. Case report, 309
Posterior fossa arteriovenous malformations, 1
The transtorcular embolization of vein of Galen aneurysms, 731
Encephalocele
Nasal glioma and encephalocele: two separate entities. Report of two cases, 516
Endarterectomy
Incidence and etiology of intracerebral hemorrhage following carotid endarterectomy, 29
Ependymoma
Supratentorial ependymomas. Neuroimaging and clinicopathological correlation, 209
Epilepsy
Temporal lobectomy in children with epilepsy, 371
Epsilon aminocaproic acid
Antifibrinolytic therapy of experimentally grown malignant brain tumors, 263
Errata
Intervertebral discolysis with collagenase: Erratum. Letter, 989
A singular accomplishment: Erratum. Letter, 830
Evoked potentials
False-negative results from intraoperative SSEP's. Letters, 986
Recording of spinal somatosensory evoked potentials for intraoperative spinal cord monitoring, 601

Facial pain
Intracranial tumors in patients with facial pain, 865
Free-fat transplant
Free-fat transplants and adhesions. Letter, 829

Germinal matrix
Vasculature to the germinal matrix in rabbit pups, 650
Glioblastoma multiforme
Antifibrinolytic therapy of experimentally grown malignant brain tumors, 263
Effects of ACNU and radiotherapy on malignant glioma, 53
In vitro killing of human glioblastoma by interleukin-2-activated autologous lymphocytes, 114
Interleukin-2 and autologous lymphokine-activated killer cells in the treatment of malignant glioma. Preliminary report, 743
Interstitial hyperthermia and iridium brachytherapy in treatment of malignant glioma. A Phase I clinical trial, 581
Intrinsic brain-stem tumors of childhood: surgical indications, 11
Phase II trial of interferon-β for treatment of recurrent glioblastoma multiforme, 408
Glioma
Laser photochemotherapy of rhodamine-123 sensitized human glioma cells *in vitro*, 918

Head injury
Alimentation of head-injured patients. Letters, 984
Assessment of nutritional requirements of head-injured patients, 895
Biomechanical study of full-contact karate contrasted with boxing, 248
Brain damage from boxing. Letter, 829
Cerebral hemodynamics in patients with acute severe head trauma, 231
Computerized tomography, magnetic resonance imaging, and positron emission tomography in the study of brain trauma. Preliminary observations, 760
Effect of high-dose dexamethasone on outcome from severe head injury, 81
Effects of fluid-percussion brain injury on regional cerebral blood flow and pial arteriolar diameter, 787
Experience with Althesin in the management of persistently raised ICP following severe head injury, 414
Heterotopic new bone formation in the cervical spine following head injury. Case report, 513
Nadolol in posttraumatic intention tremor. Letter, 162
Nuclear magnetic resonance imaging and spectroscopy in experimental brain edema in a rat model, 795
Physiological and metabolic response to isolated closed-head injury. Part 1: Basal metabolic state: correlations of metabolic and physiological parameters with fasting and stressed controls, 89
Serum and urine zinc response in head-injured patients, 224
Superoxide production in experimental brain injury, 803
Temporalis myofascial repair of traumatic defects of the anterior fossa. Technical note, 977
Hemangioblastoma
Hemangioblastoma of the cervicomedullary junction. Report of three cases, 317
Hematoporphyrin derivative
Distribution, retention, and phototoxicity of hematoporphyrin derivative in a rat glioma. Intraneoplastic versus intraperitoneal injection, 768
In vitro photoradiation therapy of the rat 9L gliosarcoma, 775
Hemifacial spasm
Clip-grafts in microvascular decompression of the posterior fossa. Technical note, 679
Hydrocephalus
CSF dynamics and pressure-volume relationships in communicating hydrocephalus, 45
Intracranial arachnoid cysts in children, 835
Large extra-abdominal cyst as a postpartum complication of peritoneal shunt. Case report, 151
Medical imaging of fetal ventriculomegaly, 575
Perimesencephalic cistern obliteration: a CT sign of life-threatening shunt failure, 386
Pressure-volume relationships in shunt-dependent childhood hydrocephalus. The zone of pressure instability in children with acute deterioration, 390
Reaction of rabbit lateral periventricular tissue to shunt tubing implants, 932
Sudden deterioration and death in patients with benign tumors of the third ventricle area, 216
Thermistor detection of shunt obstruction. Letters, 343
Ultrastructural morphology of the olfactory pathway for cerebrospinal fluid drainage in the rabbit, 466

Immunotherapy
In situ cell kinetics studies on human neuroectodermal tumors with bromodeoxyuridine labeling, 453
In vitro killing of human glioblastoma by interleukin-2-activated autologous lymphocytes, 114
In vivo imaging of intracranial human glioma xenografts comparing specific with nonspecific radiolabeled monoclonal antibodies, 257
Interleukin-2 and autologous lymphokine-activated killer cells in the treatment of malignant glioma. Preliminary report, 743
Phase II trial of interferon-β for treatment of recurrent glioblastoma multiforme, 408
Indomethacin
Effect of indomethacin in focal cerebral ischemia. Letters, 687
Infection, bacterial
Delayed brain abscess related to a retained foreign body with culture of *Clostridium bifermentans*. Case report, 813
Differential diagnosis of CT-hypodense cranial lesions with indium-111-oxine-labeled leukocytes, 750
Intracranial tuberculoma and the CT scan, 568
A model of brain abscess: septic homologous blood clot emboli in rats, 125
Risk factors for postoperative neurosurgical wound infection. A case-control study, 902
Infection, fungal
Multiple brain abscesses associated with a mycotic aneurysm of the left common carotid artery. Case report, 325
Post-craniotomy wound infection caused by *Pseudallescheria boydii*, Case report, 153
Infection, parasitic
Granulomatous brain tumor caused by *Acanthamoeba*. Case report, 505
Infection, postoperative
Post-craniotomy wound infection caused by *Pseudallescheria boydii*. Case report, 153
Risk factors for postoperative neurosurgical wound infection. A case-control study, 902
Instrumentation
Miniclips and microclips for surgical hemostasis. Technical note, 824
A new microclip for vascular occlusion. Technical note, 822
Table-fixed retractor system for noncranial surgery. Technical note, 819
X-ray-translucent retractors in spine surgery. Technical note, 520
Intention tremor
Nadolol in posttraumatic intention tremor. Letter, 162
Interferon
Phase II trial of interferon-β for treatment of recurrent glioblastoma multiforme, 408
Interleukin-2
In vitro killing of human glioblastoma by interleukin-2-activated autologous lymphocytes, 114
Interleukin-2 and autologous lymphokine-activated killer cells in the treatment of malignant glioma. Preliminary report, 743
Interventional radiology
Inadvertent middle cerebral artery embolism by a detachable balloon: management by embolectomy. Case report, 309
Intervertebral disc
Correlation of radiological features to failure of lumbar intervertebral disc chemonucleolysis, 736
Effects of collagenase and chymopapain on spinal nerves and intervertebral discs of Cynomolgus monkeys, 474
Free-fat transplants and adhesions. Letter, 829
Surgical experience following intervertebral discolysis with collagenase, 613
Intracranial hemorrhage
Neurological manifestations of intracranial dural arteriovenous malformations, 724
Intracranial neoplasm, *see also* Brain neoplasm
Operative management of tumors involving the cavernous sinus, 879
Intracranial pressure
Delayed intracerebral hematoma at the site of a subarachnoid bolt pressure monitor. Case report, 673
Effects of hypertonic saline versus lactated Ringer's solution on cerebral oxygen transport during resuscitation from hemorrhagic shock, 627
Experience with Althesin in the management of persistently raised ICP following severe head injury, 414
Focal brain edema associated with acute arterial hypertension, 643
Variations in pressure-volume index and CSF outflow resistance at different locations in the feline craniospinal axis, 298
Intraoperative monitoring
Anorectal pressure monitoring during surgery on sacral lipomeningocele. Case report, 155
Echocardiographic detection and treatment of intraoperative air embolism, 440
False-negative results from intraoperative SSEP's. Letters, 986
Operative management of tumors involving the cavernous sinus, 879
Recording of spinal somatosensory evoked potentials for intraoperative spinal cord monitoring, 601
Intraventricular hemorrhage
Preterm rabbit model of intraventricular hemorrhage. Letter, 688

Kahn, Edgar A.
Edgar A. Kahn, M.D., 1900–1985, 167
Keen, W. W.
W. W. Keen and the dawn of American neurosurgery, 705

Laser
Computer-assisted stereotaxic laser resection of intra-axial brain neoplasms, 427
Effects of Nd:YAG and CO_2 lasers on cerebral microvasculature. Study in normal rabbit brain, 128
Laser photochemotherapy of rhodamine-123 sensitized human glioma cells *in vitro*, 918
Laser versus radiofrequency lesions of the DREZ. Letters, 341
Lipoma
Large intramedullary lipoma of the cervical cord and posterior fossa. Case report, 974
Lipomeningocele
Anorectal pressure monitoring during surgery on sacral lipomeningocele. Case report, 155
Lumbar discography
Lumbar discography: an outdated procedure. Letters, 686

Magnetic resonance imaging
Computerized tomography, magnetic resonance imaging, and positron emission tomography in the study of brain trauma. Preliminary observations, 760
Medical imaging of fetal ventriculomegaly, 575
Stereotaxic surgery with a magnetic resonance- and computerized tomography-compatible system, 872

Index

Mannitol
The effect of mannitol on cerebral blood flow, 754
Effects of rapid mannitol infusion on cerebral blood volume. A positron emission tomographic study in dogs and man, 104
Medulla
Hemangioblastoma of the cervicomedullary junction. Report of three cases, 317
Medulla oblongata edema associated with neurogenic pulmonary edema. Case report, 494
Medulloblastoma
Medulloblastoma in childhood: results of radical resection and low-dose neuraxis radiation therapy, 238
Meningioma
Cystic meningiomas. Report of seven cases, 35
Extraspinal meningioma. Case report, 328
Late outcome after suprachiasmal meningioma removal. Letter, 525
Papillary meningioma involving the oculomotor nerve in an infant. Case report, 808
Recurrence of intracranial meningiomas: the role played by regional multicentricity, 58
Sex steroid hormones and meningioma cell growth. Letters, 341
Meningomyelocele
Preoperative evaluation and surgical management of the Arnold-Chiari II malformation, 363
Metabolism
Assessment of nutritional requirements of head-injured patients, 895
Cerebral effects of hypocapnia plus nitroglycerin-induced hypotension in dogs, 924
Physiological and metabolic response to isolated closed-head injury. Part 1: Basal metabolic state: correlations of metabolic and physiological parameters with fasting and stressed controls, 89
Serum and urine zinc response in head-injured patients, 224
Methylprednisolone
"High-dose" methylprednisolone and CNS injury. Letters, 985
Microvasculature
Effects of Nd:YAG and CO_2 lasers on cerebral microvasculature. Study in normal rabbit brain, 128
Microvascular anatomy of the interpeduncular fossa, 484
Selective hemoglobin inhibition of endothelium-dependent vasodilation of rabbit basilar artery, 445
Vasculature to the germinal matrix in rabbit pups, 650
Myelography
Neurological deterioration after lumbar puncture below complete spinal subarachnoid block, 253

Nadolol
Nadolol in posttraumatic intention tremor. Letter, 162
Naloxone
Effect of naloxone on cerebral perfusion and cardiac performance during experimental cerebral ischemia, 780
Treatment of experimental stroke with opiate antagonists. Effects on neurological function, infarct size, and survival, 99
Naltrexone
Treatment of experimental stroke with opiate antagonists. Effects on neurological function, infarct size, and survival, 99
Neurosurgical certification
Recognition of special qualifications in neurological surgery, 531
Neurosurgical education
Operative summary in residency training programs. Letter, 526
Recognition of special qualifications in neurological surgery, 531
Neurosurgical history
W. W. Keen and the dawn of American neurosurgery, 705

Nimodipine
Effect of nimodipine on intracellular brain pH, cortical blood flow, and EEG in experimental focal cerebral ischemia, 617
Nizofenone
Nizofenone administration in the acute stage following subarachnoid hemorrhage. Results of a multi-center controlled double-blind clinical study, 420

Obituary
Edgar A. Kahn, M.D., 1900–1985, 167
Optic nerve
Optic nerve apoplexy. Report of two cases, 313

Pain
Continuous intrathecal hydromorphone and clonidine for intractable cancer pain, 890
Spinal cord stimulation in peripheral arterial disease. A cooperative study, 71
Subcortical electrical stimulation for control of intractable pain in humans. Report of 122 cases (1970–1984), 543
Suprascapular nerve entrapment. A summary of seven cases, 843
Peripheral nerve entrapment
Peripheral nerve entrapment due to steroid-induced lipomatosis of the popliteal fossa. Case report, 666
Suprascapular nerve entrapment. A summary of seven cases, 843
Tremor and peripheral nerve entrapment. Case report, 145
Tremor following peripheral nerve injury. Letter, 984
Peripheral vascular disease
Spinal cord stimulation in peripheral arterial disease. A cooperative study, 71
Photochemotherapy
Laser photochemotherapy of rhodamine-123 sensitized human glioma cells *in vitro*, 918
Photoradiation therapy
Distribution, retention, and phototoxicity of hematoporphyrin derivative in a rat glioma. Intraneoplastic versus intraperitoneal injection, 768
In vitro photoradiation therapy of the rat 9L gliosarcoma, 775
Pituitary adenoma
Familial acromegaly with pituitary adenoma. Report of three affected siblings, 510
Intracranial and intraspinal dissemination from a growth hormone-secreting pituitary tumor. Case report, 140
Long-term results in transsphenoidal removal of nonfunctioning pituitary adenomas, 713
The occurrence of dural invasion in pituitary adenomas, 402
The proliferative potential of human pituitary tumors *in situ*, 588
Transsphenoidal extracapsular approach to pituitary tumors, 16
Pneumocephalus
Pneumocephalus in patients with CSF shunts. Letter, 989
Positron emission tomography
Computerized tomography, magnetic resonance imaging, and positron emission tomography in the study of brain trauma. Preliminary observations, 760
Effects of rapid mannitol infusion on cerebral blood volume. A positron emission tomographic study in dogs and man, 104
Prostaglandins
Development of cyclooxygenase and lipoxygenase metabolites

of arachidonic acid after transient cerebral ischemia, 118
A pharmacological analysis of the pathophysiological mechanisms of posttraumatic spinal cord ischemia, 951
Pulmonary edema
Medulla oblongata edema associated with neurogenic pulmonary edema. Case report, 494
Pulmonary embolism
Management of symptomatic deep venous thrombosis and pulmonary embolism on a neurosurgical service, 563

Radiation therapy
Early results of ion beam radiation therapy for sacral chordoma. A Northern California Oncology Group study, 243
Effects of ACNU and radiotherapy on malignant glioma, 53
Interstitial hyperthermia and iridium brachytherapy in treatment of malignant glioma. A Phase I clinical trial, 581
Medulloblastoma in childhood: results of radical resection and low-dose neuraxis radiation therapy, 238
Radiotherapy of intracranial AVM's. Letter, 525
Radiofrequency lesion
Laser versus radiofrequency lesions of the DREZ. Letters, 341
Residency training
Operative summary in residency training programs. Letter, 526
Retractor
Table-fixed retractor system for noncranial surgery. Technical note, 819
X-ray-translucent retractors in spine surgery. Technical note, 520

Sacral chordoma
Early results of ion beam radiation therapy for sacral chordoma. A Northern California Oncology Group study, 243
Schwannoma
Cerebrospinal fluid rhinorrhea following surgery for acoustic neurinoma. Report of two cases, 676
Shock
Effects of hypertonic saline versus lactated Ringer's solution on cerebral oxygen transport during resuscitation from hemorrhagic shock, 627
Shunt
Intracranial arachnoid cysts in children, 835
Large extra-abdominal cyst as a postpartum complication of peritoneal shunt. Case report, 151
Perimesencephalic cistern obliteration: a CT sign of life-threatening shunt failure, 386
Pneumocephalus in patients with CSF shunts. Letter, 989
Pressure-volume relationships in shunt-dependent childhood hydrocephalus. The zone of pressure instability in children with acute deterioration, 390
Reaction of rabbit lateral periventricular tissue to shunt tubing implants, 932
Thermistor detection of shunt obstruction. Letters, 343
Skull neoplasm
Aneurysmal bone cyst with fibrous dysplasia of the parietal bone. Report of two cases, 331
Spasmodic torticollis
Spasmodic torticollis and neurovascular compression. Letter, 686
Spinal column
Heterotopic new bone formation in the cervical spine following head injury. Case report, 513
Spinal cord
Direct spinal arteriovenous fistula: a new type of spinal AVM. Case report, 134
Recording of spinal somatosensory evoked potentials for intraoperative spinal cord monitoring, 601
Spinal cord arteriovenous malformation in a neonate. Case report, 322
Spinal cord stimulation in peripheral arterial disease. A cooperative study, 71
Spinal cord injury
Experimental spinal cord injury: quantitation of axonal damage by automated image analysis, 304
"High-dose" methylprednisolone and CNS injury. Letters, 985
A pharmacological analysis of the pathophysiological mechanisms of posttraumatic spinal cord ischemia, 951
Protection against experimental ischemic spinal cord injury, 633
Spinal cord tethering after traumatic paraplegia with late neurological deterioration, 397
Spinal cord ischemia
Protection against experimental ischemic spinal cord injury, 633
Spinal cord neoplasm
Extraspinal meningioma. Case report, 328
Large intramedullary lipoma of the cervical cord and posterior fossa. Case report, 974
Spinal fracture
Surgical stabilization of traumatic cervical spine dislocation using methyl methacrylate. Long-term results in 26 patients, 39
Spinal neoplasm
Early results of ion beam radiation therapy for sacral chordoma. A Northern California Oncology Group study, 243
Neurological deterioration after lumbar puncture below complete spinal subarachnoid block, 253
Outcome after intramedullary spinal neoplasm resection. Letters, 687
Spinal stabilization
Intraoperative cervical spine stabilization using the halo ring and the Mayfield three-pin skull clamp. Technical note, 157
Surgical stabilization of traumatic cervical spine dislocation using methyl methacrylate. Long-term results in 26 patients, 39
Spinal stenosis
Vascular and neural pathology of lumbosacral spinal stenosis, 64
Spine
Lumbar discography: an outdated procedure. Letters, 686
Table-fixed retractor system for noncranial surgery. Technical note, 819
X-ray-translucent retractors in spine surgery. Technical note, 520
Stereotaxis
Computer-assisted stereotaxic laser resection of intra-axial brain neoplasms, 427
Interstitial hyperthermia and iridium brachytherapy in treatment of malignant glioma. A Phase I clinical trial, 581
Stereotaxic surgery with a magnetic resonance- and computerized tomography-compatible system, 872
Steroids
Effect of high-dose dexamethasone on outcome from severe head injury, 81
Subarachnoid hemorrhage
Bifrontal interhemispheric approach to aneurysms of the anterior communicating artery, 183
Cerebral vasospasm evaluated by transcranial ultrasound correlated with clinical grade and CT-visualized subarachnoid hemorrhage, 594
Distal posterior cerebral artery aneurysm. Case report, 669
The effect of mannitol on cerebral blood flow, 754

Nizofenone administration in the acute stage following subarachnoid hemorrhage. Results of a multi-center controlled double-blind clinical study, 420
Outcome evaluation following subarachnoid hemorrhage, 191
Prognosis in subarachnoid hemorrhage of unknown etiology, 359
Reduced platelet function in subarachnoid hemorrhage, 907
Spontaneous subarachnoid hemorrhage and negative cerebral panangiography. Review of 140 cases, 537
Surgical management of aneurysms of the distal extracranial internal carotid artery, 169
Ultrastructural evidence of arterial denervation following experimental subarachnoid hemorrhage, 292
Syringomyelia
Medulla oblongata edema associated with neurogenic pulmonary edema. Case report, 494

Temporal lobectomy
Temporal lobectomy in children with epilepsy, 371
Tethered spinal cord
Spinal cord tethering after traumatic paraplegia with late neurological deterioration, 397
Tremor
Tremor and peripheral nerve entrapment. Case report, 145
Tremor following peripheral nerve injury. Letter, 984
Trigeminal neuralgia
Clip-grafts in microvascular decompression of the posterior fossa. Technical note, 679
Intracranial tumors in patients with facial pain, 865

Vasopressin
Effect of vasopressin on cold-induced brain edema in cats, 941
Vasospasm
Cerebral vasospasm evaluated by transcranial ultrasound correlated with clinical grade and CT-visualized subarachnoid hemorrhage, 594
The effect of mannitol on cerebral blood flow, 754
Vertigo
Diagnosis and surgical treatment of disabling positional vertigo, 21
Vestibular nerve
Diagnosis and surgical treatment of disabling positional vertigo, 21
von Hippel-Lindau disease
Hemangioblastoma of the cervicomedullary junction. Report of three cases, 317
Medulla oblongata edema associated with neurogenic pulmonary edema. Case report, 494
